AmerisourceBergen Leaders Actively Support Legislators In Line with Community Oncology

Leaders from AmerisourceBergen Corporation have been actively supporting legislators whose records are in line with the needs of community oncology. ABC leaders recently attended an event in Dallas with Senator Pat Toomey of Pennsylvania, and a fundraiser, hosted by Mark Santos, President, ION GPO, for Congressman Bill Cassidy, MD, of Louisiana's 6th District. Rep. Cassidy, a physician and champion for community cancer care, is a candidate for the U.S. Senate in Louisiana. Rep. Cassidy will face incumbent Senator Mary Landrieu (D) in November's general election. This race is expected to lead to a December runoff and potentially determine party control of the U.S. Senate. As a physician, Congressman Cassidy is dedicated to improving Healthcare in America. Specifically, he is committed to protecting Medicare Advantage for senior citizens. To learn more, [see here](#).
